IMPORTERS AND MANUFACTURERS OF

Grand, Semi-Grand, and Six-Octave Double-Action
HARPS.

**Warerooms, 110 West Houston St.,
New York.**

ESTABLISHED, LONDON, 1810; NEW YORK, 1841.

Strings, Music, and Every Requisite for the Harp.

These harps are constructed on the most approved principles, with all the modern improvements of London and Paris. Particular care is taken to fit them for extremes of climate in this country. Prices also will be found advantageous.

"Messrs. Browne & Buckwell's Harps are by far the most magnificent instruments we ever saw. Through their perfect knowledge of the instrument, they have effected many important improvements in the mechanical departments, and in the tone there is an extraordinary addition of sweetness, purity and power. The cordial approval of the celebrated harpist Bochs is a tower of strength, and should make him and his works celebrated throughout the country."—*Musical World*.

RIVERVIEW ACADEMY,

OVERLOOKING THE HUDSON RIVER

—AT—

POUGHKEEPSIE, N. Y.

The attention of intelligent persons is called to the advantages furnished at RIVERVIEW ACADEMY for the education of Boys.

The training in this Academy is claimed to be superior for awakening the enthusiasm and dormant energies of such pupils as have failed to find much interest in study or school exercises generally, while to the studious and diligent it furnishes such recreation in its well-organized military exercises, as is calculated to insure continuance of bodily health without interfering with study.

While there is no design to magnify the military part unduly, nor to train boys to become soldiers, it is, nevertheless, found that as an instrument, as it were, of discipline, it is invaluable. Its products are attention, erectness of form, graceful carriage, confidence without arrogance—in short, a large part of the sum of those graces that make men acceptable in society, and useful in the world.

It is claimed that in morals and behavior, boys are as well off as they are in good homes, and far better than in many. Many parents are not in circumstances to give proper and needed attention to their boys. To such this Academy offers its careful supervision and training.

Mlle. TARDIVEL'S
ENGLISH, FRENCH, AND LATIN
Boarding and Day School,
FOR YOUNG LADIES AND CHILDREN.

25 West 46th Street, New York.

The object of this Institution is to give a thorough education to the Young Ladies and Children of the First Families.

The course of instruction is not only full, but embraces many subjects not usually taught.

All the modern languages are taught by native professors of acknowledged ability. The study of Latin is optional.

Unsurpassed facilities for the study of French are offered, ensuring to the pupil as speedy and thorough an acquisition of the language as can be had in Paris. It is the invariable medium of conversation.

The classes of Rhetoric, of Literature and of Science are entrusted to professors of eminence.

The classes in Sol-fège and in Drawing are in the charge of artists of name and of position.

Special Professors and Teachers are engaged for each study. This expense is justified by the fact that pupils make better progress when studying under a professor who teaches only his specialty.

The accommodations afforded boarders are unequalled. Mlle. TARDIVEL makes her home attractive and comfortable for them, and when with her, she is sure that they are surrounded by those wholesome restraints which are essential to their safety and happiness.

The School Hours are from 9 A.M. to 1:30 P.M.; but Day Scholars who wish to remain throughout the day, can be provided with dinner, have the use of the Study Room, take the daily walk with the Boarders, and return home at the close of the day, free from all School Duties.

The House is spacious, beautifully furnished, and well supplied with all the modern conveniences. The situation is central and select.

Every man is bound by obligations, which he owes to his family and to society, to leave as a heritage to those who come after him, some substantial result of his years of living and labor.

PHOENIX MUTUAL Life Insurance Company,

HARTFORD, CONN.

Jan. 1, 1873.

Policies Issued, 1872, 10,527. Income, 1872, \$3,413,752.45.

The only old Company of consideration that has increased its business in 1872:

ASSETS, securely invested.....\$8,209,325.07
SURPLUS, free of all liabilities.....1,199,831.50
DIVIDENDS, paid to Policy-holders during the year 943,441.71
INCOME, for the year.....3,413,752.45
LOSSES, paid during the year.....831,116.32

Comparison of the Business of 1871 and 1872.

	Policies Issued.	Income.	Dividends Paid Policy-Holders.	Losses By Death.	Net Assets.
1871, . .	10,039	\$3,135,736.14	\$663,654.22	\$652,590.57	\$7,356,967.28
1872, . .	10,527	3,413,752.45	943,441.71	831,116.32	8,209,325.07

An increase which affords most convincing proof of the growing and well-merited favor with which the Company is regarded by insurers.

The following table exhibits the progress of the Company during the last ten years:

	Policies Issued.	Income.	Dividends Paid Policy-Holders.	Losses By Death.	Assets.
1862 and 63,	1,717	\$125,672.00	\$1,244.00	\$58,600.00	\$437,933.00
1864 and 65,	6,599	789,733.00	2,388.00	117,200.00	903,285.00
1866 and 67,	9,919	2,027,651.00	50,222.00	196,050.00	2,218,344.00
1868 and 69,	16,852	4,363,812.00	461,716.00	502,544.00	5,081,975.00
1870 and 71,	19,105	5,963,392.00	1,162,412.00	1,153,056.00	7,510,614.00

An examination of the above figures shows that the Company is a progressive one, that it guarantees ample security to its Policy-holders, and that it affords Insurance at the lowest rates. It appears, also, that within the last ten years it has paid to its policy holders, in Dividends, nearly *Two Million Seven Hundred Thousand Dollars*, and in losses by death nearly *THREE MILLION DOLLARS*, and at the same time it has greatly increased its Assets, as well as maintained a large surplus over all liabilities.

Since the commencement of its business the Company has issued over *Seventy-two Thousand Policies*, and has paid to the families of its deceased members nearly *THREE AND A HALF MILLION DOLLARS*.

COLLEGE

OF THE

Christian Brothers,

ST. LOUIS, MO., 1872.

This Literary Institution possesses all the advantages of an agreeable and healthy location, easy of access, being situated on a rising ground a little to the south-west of the Pacific Railroad terminus in the city of St. Louis, Missouri. It was founded in 1851 by the Brothers of the Christian Schools, incorporated in 1855 by the State Legislature, and empowered to confer degrees and academical honors. However favorable the auspices under which it commenced its literary career, its progress since has surpassed all anticipation. Growing equally in public confidence and in the number of students, it has gone on extending its reputation. Repeated additions have been made to the original buildings. The number of students received within the last year amounted to more than 600, and many applicants were refused admission for want of room.

Every possible attention is paid to whatever can contribute to the health and happiness of its inmates—ventilation, cleanliness, spacious halls, dormitories, refectory, recreation halls for cold or damp weather, etc., etc.

The various arts and sciences usually taught in colleges find here an appropriate place in a system of education established by experience, conducted on the most approved plan, and with a devotedness commensurate with the greatness of the work engaged in. By reason of the great number of classes, a thorough gradation for all capacities and acquirements has been attained, and the frequent examinations and promotions beget emulation, the soul of advancement, making labor a pleasure and success certainty.

The course of instruction pursued in the Academy is divided into three departments: the primary, the intermediate, and the collegiate. There is, besides, an exclusively commercial course, offering rare advantages to young gentlemen who intend to make business their profession. It is divided into three classes, in which the chief place is given to instruction in Book-keeping, Arithmetic, Geography and History, Business Forms and Correspondence, Epistolary Composition, Penmanship, etc., with Lectures on Commercial Law, Political Economy, etc. Diplomas can be obtained in the Commercial Department by such as merit that distinction.

The session commences on the last Monday in August, and ends about the 3d of July, with an annual public examination and distribution of premiums, and the conferring of degrees and academical honors.

On the completion of the course the degree of A. B. is conferred upon such students as, on examination, are found worthy of that distinction. The degree of A. M. can be obtained by graduates of the first degree after two years devoted to some scientific or literary pursuit, their moral character remaining unexceptionable.

The government is a union of mildness and firmness, energy and kindness, a blending of paternal solicitude with fraternal sympathy; the results of which are contentment, good order, and happiness. The morals and general deportment of the students are constantly watched over; Brothers preside at their recreations, and their comfort and personal habits receive every attention.

This Institution is situated upon a rising ground, in one of the healthiest and most picturesque portions of the State, and within a few minutes' walk of the Ellicott City Railroad Station.

It affords rare facilities to the student who would pursue a Commercial, Classical, or Scientific course.

While proper care is bestowed on every subject taught in the College, our own language receives special attention. The daily exercises of the students in Grammar, Composition and Rhetoric, are publicly discussed and corrected in the class-room. The English classics are read with all the attention bestowed on a Latin or Greek author; words, idioms, striking expressions and historical allusions are dwelt upon in the spirit of sound criticism and philology.
